

ANNUAL REPORT

THE MONTESSORI SCHOOLS FOUNDATION

YEAR ENDING 30TH JUNE 2006.

This year the Montessori Schools Foundation has had a quieter year whilst the Education White Paper was issued and the resulting Education Bill has been going through Parliamentary processes.

The Charity's Objects were amended to more realistically reflect the likely path of our activities and the nature of working relationships we are developing within the UK and abroad.

Our income has been at a much lower level this year, mostly generated from events involving the Brighton & Hove Montessori School community.

Expenditure of funds was mainly in payment of professional fees.

Looking to the future we are in the process of developing our website to raise our profile and help generate more income for the Charity.

Our main focus for the year ahead will be researching, raising funds for and implementing a Bursary scheme to enable children from families with a variety of needs to attend Brighton & Hove Montessori School who cannot afford to pay fees.
